

ATTENTION PARENT: The Vision and Hearing Screening Program requires that every child have an eye examination or an approved vision screening test prior to or within 120 days after entry into a Texas public or private preschool or school, licensed child care center, or child care home.

The tests conducted to evaluate your child's vision are screens; they are not diagnostic. This means that if your child fails a screen, it is necessary for him or her to be evaluated by his or her primary care provider to determine whether there is a vision problem. It also means that on some occasions a vision problem may exist that the screens will not identify.
